

An Education Conference
for Adopter's to learn, participate and connect,
hosted by Adoption UK's in partnership with Adoption@Heart.

26th November 2021

9.30am-1pm *(online)*

Learn about Education through the adoption lens from expert **Stuart Guest**, dad through adoption and birth, Head Teacher at Colebourne Primary in Birmingham and trainer of teachers in trauma and attachment matters that affect our children.

Adoption UK's, independent service Adopter Voice will be hosting the event to also capture your views and opinions, to make sure your lived experience is heard, then shared across the region's schools and with Adoption@Heart's Post Adoption Support team, to review support future planning of your family's needs.

You can join the breakout rooms to get involved and share your experience of EHCP's, Home Schooling and Attachment: What do Teachers really need to know.

Our Adopter Voice Champions will create a report full of your views and matters you want to feedback to Adoption@Heart and the Virtual Schools to influence review and change.

Finally, the conference will end with a Q & A panel including Stuart Guest plus representatives from the Virtual Schools in the region. *(Panel to be confirmed.)*
